MENTORA TO SHOWCASE ERP AND CRM TESTING EXPERTISE IN SUPPORT OF MERCURY BTO ENTERPRISE

Manufacturing and healthcare software testing expertise demonstrated at booth #306

ATLANTA, GA (October, 12, 2005) -- Mentora Group, Inc., a leading software functional and performance testing firm, announced today its participation in Mercury World 2005, powering its services with Mercury BTO Enterprise™, including Mercury's application delivery products, Mercury LoadRunner® and Mercury QuickTest Professional™.

"While Mentora's capabilities include testing, hosting and monitoring business applications, our methodology and expertise in performance testing of packaged applications with Mercury BTO Enterprise provides excellent value to our enterprise customers," said Dan Downing, VP Testing for Mentora.

Mentora is showcasing its expertise in testing Oracle Applications for global manufacturers, with examples featuring Motorola, MKS Instruments and HM Huber. Case studies and a white paper on automated testing of Oracle Applications will be available at their booth.

Via its strong presence and customer base in Boston, Mentora will also highlight its healthcare experience in performance testing of integrated healthcare and customer

relationship management applications, *Facets* and *MACCESS.exp*, with examples drawn from their work at Tufts Health Plan and Private Healthcare Systems. Mentora will announce a joint offering with SunGard EXP for customers migrating to the latest release of *MACCESS.exp*.

Downing states, "Customers value our business-oriented approach, our cost-effective remote performance testing services and our unique *Performance Profile Report™* that quantifies the business' ability to achieve target workloads."

Mentora's packaged software testing expertise includes: Oracle applications, PeopleSoft, SAP, *MACCESS.exp*, *Facets* and *StaffSuite*. Senior performance engineers work closely with the software manufacturers and their customers to optimize enterprise implementations.

ABOUT Mentora Group, Inc. www.mentora.com

Mentora provides *testing, hosting and monitoring for business applications*. Our goal is to be a one-stop shop for software quality solutions across the entire software lifecycle. We specialize in performance testing of web and client-server applications and packaged ERP suites from Oracle and PeopleSoft. Mentora has been in business since 1994, headquartered in Atlanta, with offices in Boston, and Washington DC. We are a Mercury Gold Partner, and an AT&T Hosting Partner. Our testing services include functional, load, and security vulnerability testing. Our application hosting services are hosted at AT&T's Northern Internet data center.
